Experience

GreenFlux
Product Designer

Jan 2022 - Present
Amsterdam

Focused on designing and developing a market-leading SaaS platform used by companies in the e-mobility sector to manage their charging infrastructure and payment services. Working both in the cloud-based software for B2B customers and in the mobile App for drivers.

Yource
Product Designer

Sep 2018 - Dec 2021
Amsterdam

As the sole designer, I was responsible for all aspects related to the UX of the company. The main projects were the client's dashboard and an online multi-step claim calculator. Strong focus on mobile-first approach. Worked on end-to-end projects, design system, usability testing and research.

Spotzer
UX / Web Designer

Nov 2016 - Jan 2018
Amsterdam

As a web designer working in a cross-functional team, I was creating and optimizing a large amount of sites for small and medium-sized enterprises across 16 countries.

Fabricaweb.cat
Web Designer

Jan 2014 - Aug 2016
Barcelona

I created the project Fabricaweb.cat, a freelance brand through which I offered digital services to small and medium sized companies and private individuals.
